Re: Asphalt Plant Approval
NYS DOT Facility No. H0352

Dear Mr. Ken Ryan,

On September 24, 2015 the QA & Construction Safety Bureau (QA&CS) conducted an audit of facility H0352 located at Foot of Passaic St., Newark, NJ, 07104. Based on the audit results, this facility is approved for supplying Hot Mix Asphalt (HMA) to NYC DDC projects through the end of calendar year 2016.

Please be advised that all HMA mix designs used on DDC projects are subject to QA&CS approval. The generic mix designs, once approved, are valid for a period of two years from the approval date. Please contact Richard Jones, PE at (718) 391-1417 if you require further information regarding DDC specifications or mix design approval.

This approval is subject to satisfactory performance and compliance with NYC DDC specifications.

Please be advised that DDC QA&CS intends to perform annual and periodic audits of all HMA plants to ensure continued compliance.

Very Truly Yours,

John M. DeVito

Director, QA & Construction Safety Bureau
Safety & Site Support Division
